

PULSE OXIMETER

SK-006

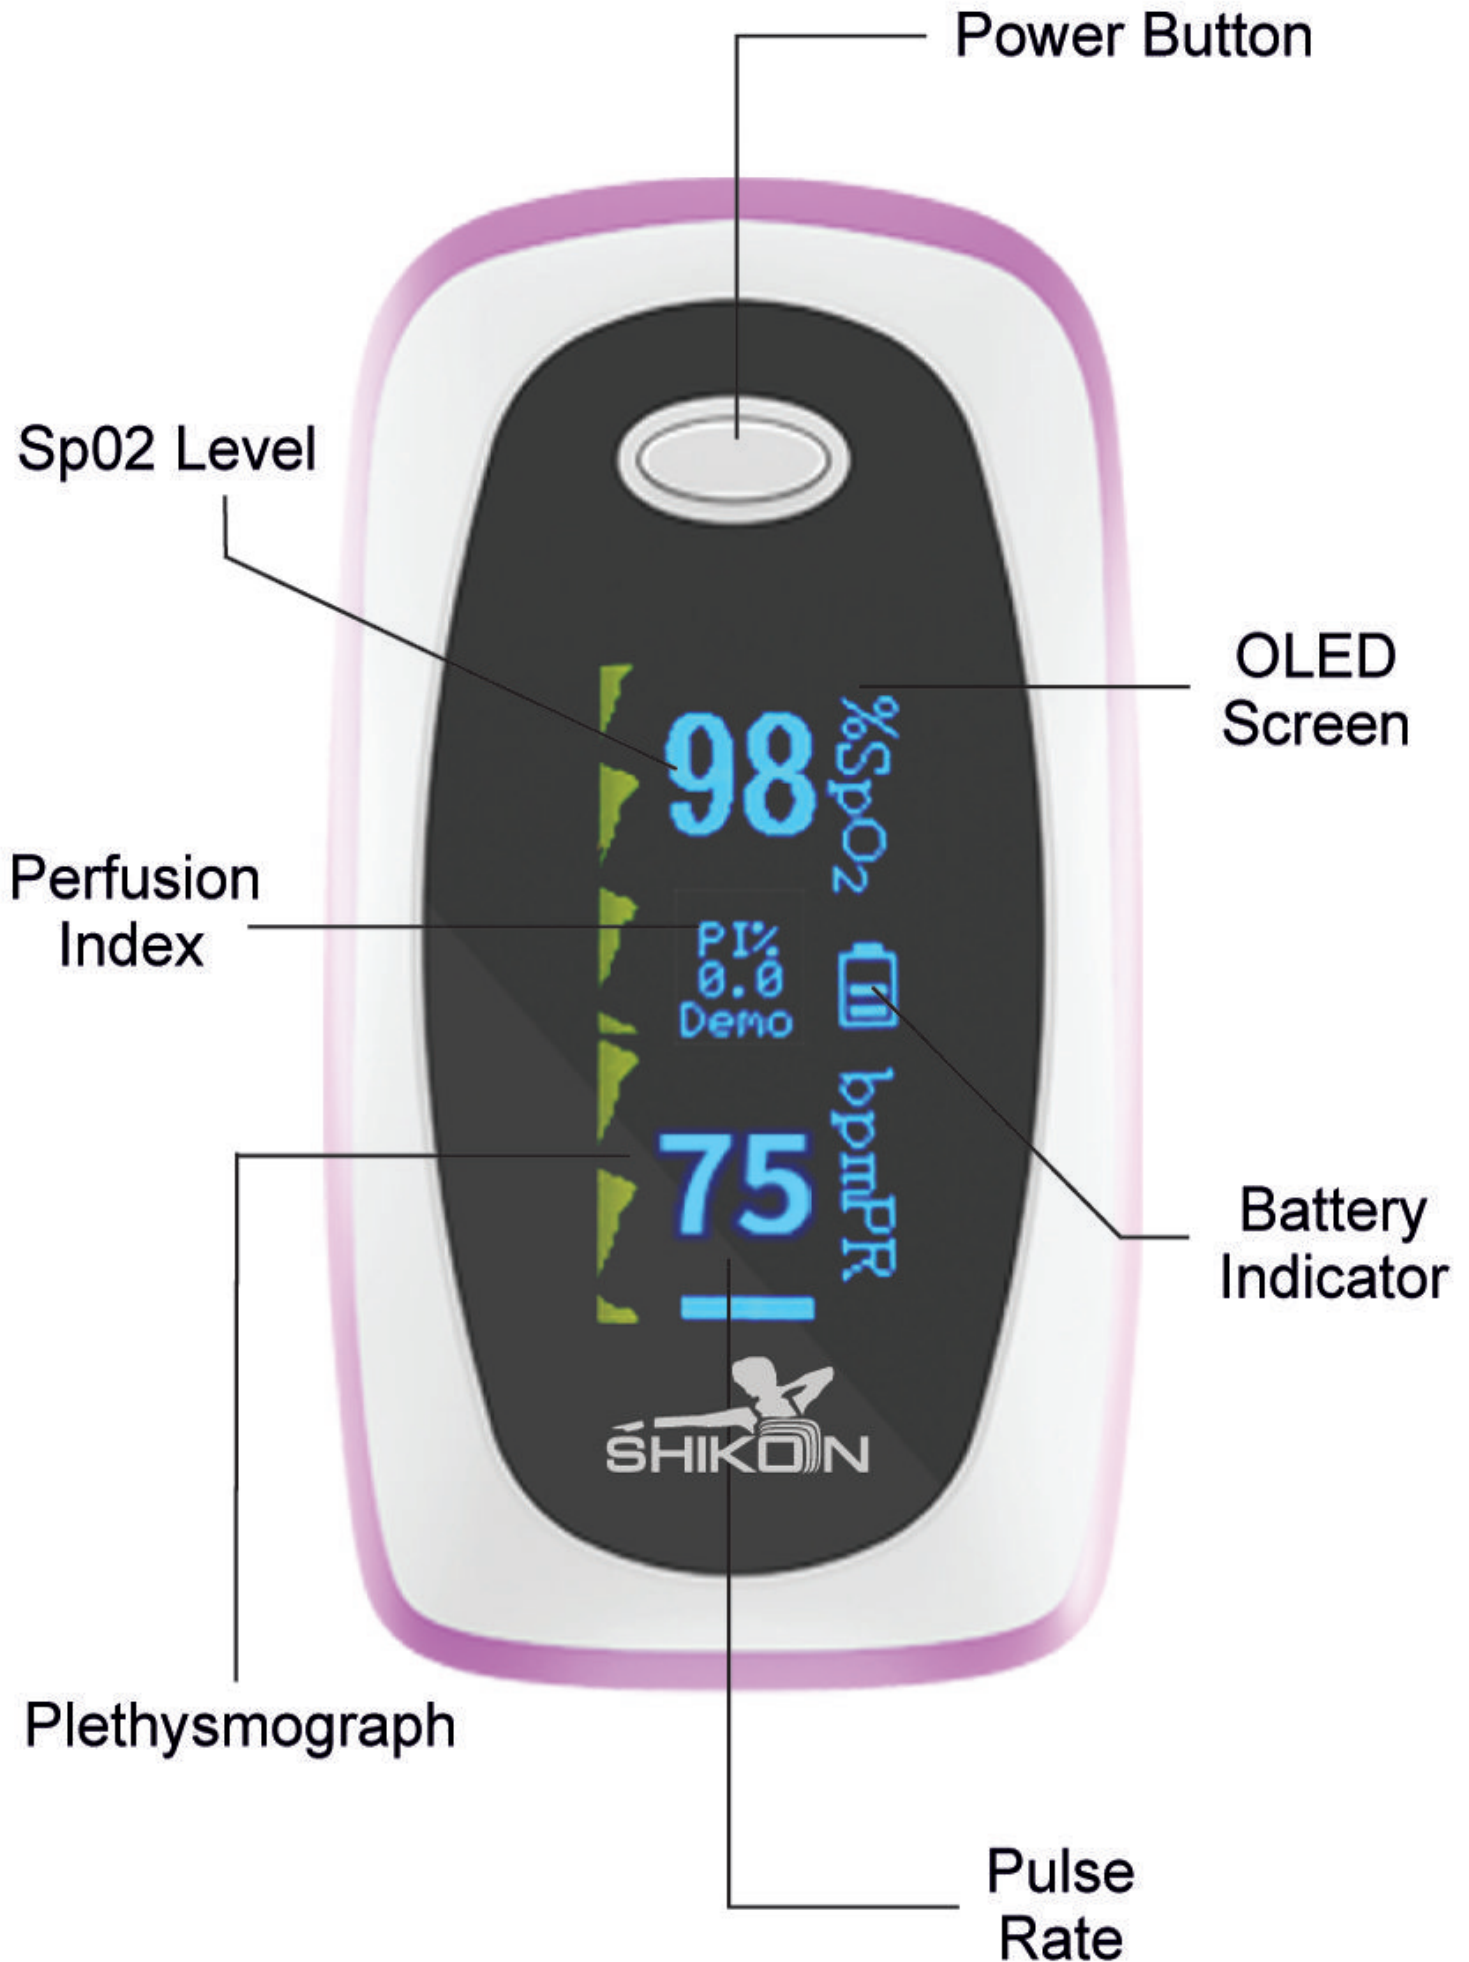

From the house of

MORNING WALKER®

MULTI FUNCTION OLED DISPLAY

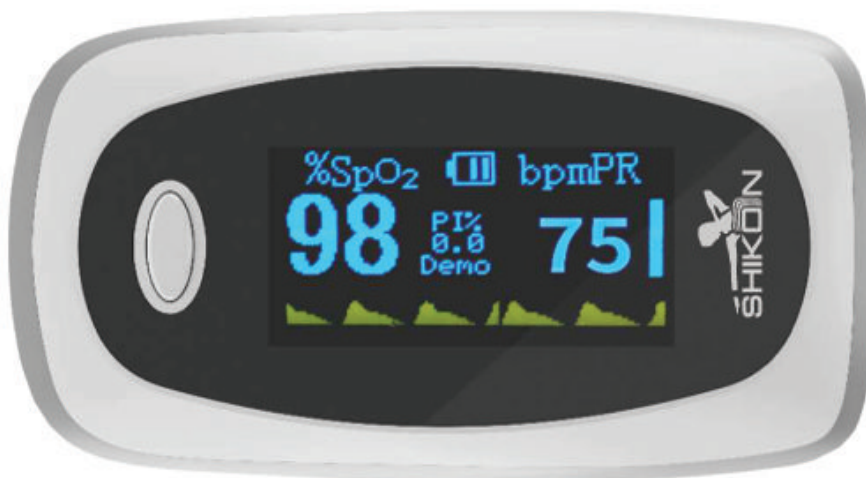

Transverse conversion

Easier reading

Built-in direction sensor, four display directions, six display modes. Accurate reading in different directions, more convenient display.

Vertical direction conversion

PERFUSION INDEX

Less than 0.2%

WHAT IS PERFUSION INDEX?

Relative assessment of pulse strength in the human body.

0.2%

Shikon pulse oximeter low perfusion index is 0.2%

0.6%

Most other pulse oximeter brands are all above 0.6%

WHAT DOES IT MEAN?

Shikon pulse oximeter can **detect the weakest of pulse strength** which most other pulse oximeters cannot.

AUDIO AND VISUAL ALARM

ADJUSTABLE

**SPO2 (OXYGEN SATURATION)
& PR (PULSE RATE)**

MORE ENERGY SAVING

- Automatic detection of finger position.
- Automatic shutdown within 10 secs without finger.

***LONG
STANDBY***

ADVANCED TECHNOLOGY

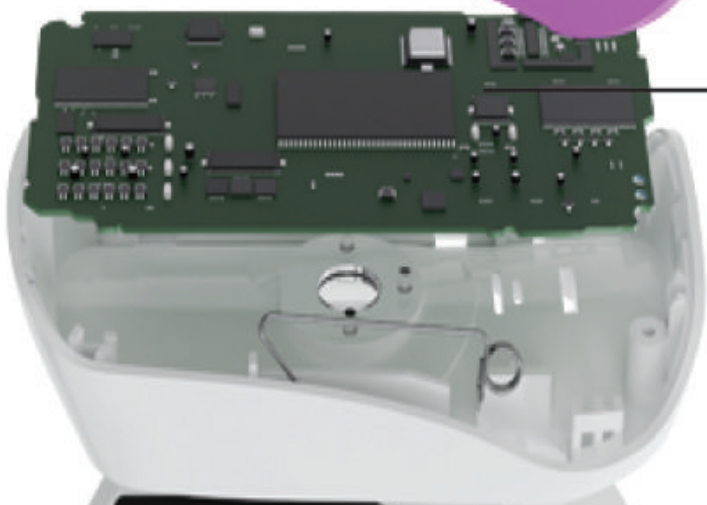

ACCURATE & RELIABLE

**Power
button**

**OLED
display**

Self-luminous, seamless
& better vision

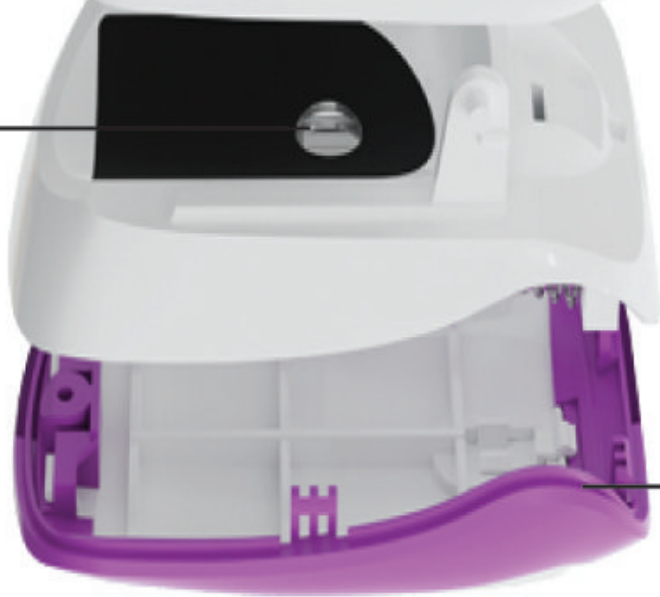

MCU

Strong performance, lower
power consumption &
persistent standby

LED

Non-invasive detection,
rapid & sensitive

**Battery
cover**
